The following report is a translation of what is said to be the text of the trade treaty concluded on 8 October 1948 between Czechoslovakia and the Soviet Union. According to source, the Soviets have since stipulated that all Czechoslovak textile deliveries to the USSR, particularly cottons and linens, must be completed by 1 July 1949, but, at the same time, have reduced their own raw cotton commitments to Czechoslovakia from approximately 1,500 carloads to 300 carloads. Source calls particular attention to the item in list 2 "Merchandise to be delivered to the USSR" representing a large value of weapon models to be provided by Czechoslovakia under the treaty. Source believes that these weapons will be studied by Soviet ordnance experts and those that prove satisfactory will be copied for Soviet use.

TRANSLATION

QUOTAS OF THE CZECH-SOVIET COMMERCIAL AGREEMENT
FOR THE YEAR 1949

1. Protocol

The political and commercial negotiations initiated by the Czechoslovak Government Delegation in Moscow, 18 August 1948, terminated in the signing of a protocol on 8 October 1948. The Minister of Foreign Trade, Dr. A. Gregor, affixed his signature for Czechoslovakia, and Gen. Semichastnov, signed for the Soviet Union.

List of Quotas

The essential part of the protocol is made up of lists 1 and 2 containing the quotas to be furnished by Czechoslovakia and the Soviet Union.

Volume of the quotas

On the basis of preliminary agreements, the quotas for export and import are set as follows: these are only estimates, since not all contracts between Czechoslovakia and the Soviet Union have been fixed definitely.

DO NOT CIRCULATE

CONFIDENTIAL**a. Soviet goods to be furnished for the year 1949**

1. Foodstuffs	3,516,000,000	kcs	- 40%
2. Raw materials --semi-finished products	4,903,000,000	kcs	- 57%
3. Finished products	250,000,000	kcs	- 3%
	8,669,000,000		- 100%

b. Czech goods to be furnished for the year 1949

1. Metallurgical industry	1,200,000,000	kcs	-
Heavy machine construction	927,000,000	kcs	-
Heavy industry	2,127,000,000	kcs	- 25%
2. Foodstuffs and agricultural produce	461,000,000	kcs	- 5%
3. Goods and products of light industry	5,991,000,000	kcs	- 70%
	8,579,000,000	kcs	- 100%

Overall quotas

For those economic categories which have not yet been the object of negotiations between the contracting parties, or have been the object of partial negotiation only, an overall quota has been established. If in the course of 1949 it becomes possible for deliveries to be made from these categories, they will be subsequently added to the lists.

Key Products

Products which are particularly important for Czechoslovak industry and which have not yet been the object of agreements have been included on special lists for retention by the Soviet contracting parties, with a request that the products may be the subject of negotiation on a preferential basis during the course of the contract year.

Precious Metals

After prolonged negotiation it has been agreed that the Soviet Union will furnish Czechoslovakia with the quantity of precious metals necessary for Czech production destined for the Soviet Union. This key principle is expressed in writing in a clause contained in an attachment at the end of the first protocol.

Price Bases

Accord has been reached between the contracting parties that the prices of goods inserted in the lists of quotas for the year 1949 will correspond to the prices on the lists for the year 1948, with the exception of new quotas not included on the preceding lists, and with the further exception of wheat, hop seeds, and sugar, for which new prices will be established on the basis of world prices increased by one-half the transport cost.

Moscow
8 October 1948

Protocol I

2. In accordance with Article 2 of the commercial agreement and the stipulation for payment drawn up between the Czechoslovak Republic and the Union of Socialist Soviet Republics on 11 December 1947, the signing plenipotentiaries have reached the following agreement:

CONFIDENTIAL
